About this Report

This report is based upon the Saville Assessment Wave® Job Profiler which assesses the relative importance of different areas to a job role.

The results are based on the ratings provided by the raters listed on the next page and reflect their perceptions of what is important to the job role. The responses have been compared to a group of over 700 raters in order to indicate how typical or unusual the level of importance assigned to the job role is in comparison to other job roles.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

This report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the rater(s) of the job role and reflect the responses they have made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.

Introduction to Report

This report is based on completion of the Saville Assessment Wave Job Profiler by various raters. The report gives feedback on the importance of different aspects of work to the job role.

Raters

The rater groups created specifically for this job role profile are shown below. The results provided by each rater group are represented by a different shape. The number of individuals in each rater group is shown in brackets.

Boss (1)

Job Holder (1)

Stakeholder (2)

Report (2)

Job Role Profile - Behaviour Clusters

The overarching Saville Assessment Wave® Behaviour Model has different levels of detail with four behaviour clusters (Solving Problems, Influencing People, Adapting Approaches, Delivering Results) at the highest level. Each cluster comprises of three sections which in turn cover three dimensions each. A behaviour dimension is defined through three facets. The results on the 36 behaviour dimensions are grouped into 12 sections with one page devoted to each behaviour cluster.

Job Role Profile - Ability Cluster

The Saville Assessment Ability Model has one ability cluster (Reasoning at Work) which is comprised of two sections that in turn each cover three dimensions. An ability dimension is defined through five facets.

Job Role Profile - Summary

The first part of the Job Role Profile Summary covers global ratings on: Applying Specialist Expertise, Accomplishing Objectives and Demonstrating Potential. This is followed by the total ratings which indicate how high or low the role requirements were rated overall on the behaviour, ability and global clusters.

Job Role Profile - Behaviour Overview

The Job Role Profile Behaviour Overview shows the combined importance scores for the 12 behavioural sections and 36 behavioural dimensions. The combined scores are based on averaging the results of the rater groups. Arrows indicate where there are differences in the ratings for the 12 behavioural sections between individual raters.

Comments

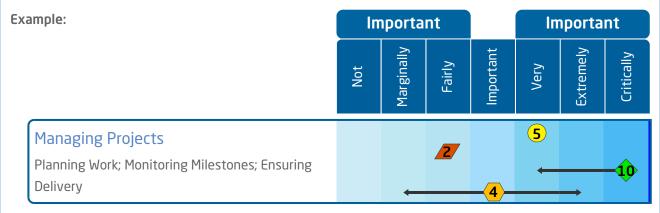

This section is a list of the comments provided by the raters.

Profile Breakdown

The results show the ratings on a work importance scale from 'Not Important' to 'Critically Important'. Each rater group is indicated by a different shaped marker as shown on the previous page.

The position of each shape on the scale indicates how the role being assessed was rated in each area. Where there is a difference between raters in a group, this is indicated by arrows either side of the marker.

In the example above, the Boss rating on 'Managing Projects' was 'Very Important', the Job Holder rating was 'Fairly Important', the Stakeholder ratings ranged from 'Very Important' to 'Critically Important' as indicated by the arrows. Finally, the Report ratings ranged from 'Marginally Important' to 'Extremely Important'.

Comparison to Others:

The results of the raters have been compared with the ratings of other roles that have previously been profiled and are based on a 1 to 10 sten scale as shown below.

1 - Extremely Low - importance higher than only 1% of comparison group

2 - Very Low - importance higher than only 5% of comparison group

3 - Low - importance higher than only 10% of comparison group

4 - Fairly Low - importance higher than only 25% of comparison group

5 - Average - importance higher than only 40% of comparison group

6 - Average - importance higher than 60% of comparison group

7 - Fairly High - importance higher than 75% of comparison group

8 - **High** - importance higher than 90% of comparison group

9 - Very High - importance higher than 95% of comparison group

10 - Extremely High - importance higher than 99% of comparison group

In the example above, the Boss rating on 'Managing Projects' was 'Average' compared to the comparison group. The Job Holder rating was 'Very Low' compared to the comparison group. The Stakeholder ratings were 'Extremely High' and the Report ratings were 'Fairly Low' in comparison to other individuals' ratings of the job role.
